INNOVATION

A UNIQUE DESIGN

Our caravans combined modernity, elegance and practicality. Caravans with a trendy look, furnished for optimum everyday comfort. Quality finishing and a welcoming, comfortable interior allowing you to enjoy your holidays in total peace of mind.

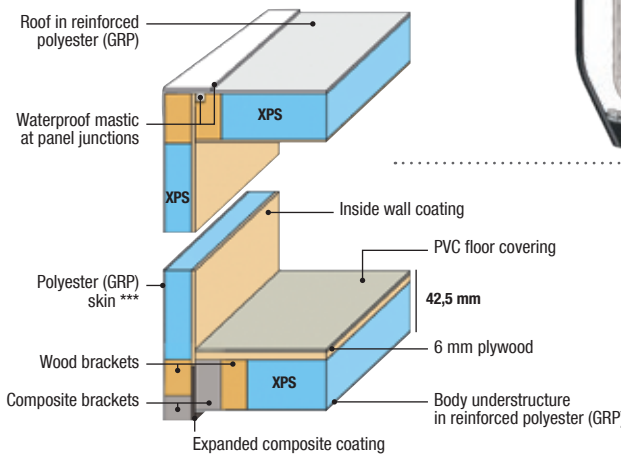

Our caravans* are produced by means of an exclusive process, referred to as IRP. IRP offers enhanced **Insulation**, improved **Resistance** and increased **Protection**.

- XPS insulation, an extra-firm and stable hydrophobic foam offering excellent sound and heat insulation.
- An effective combination of wood/composite which strengthens the framework of internal walls and floors, combining the durability of composite with the outstanding resistance of solid wood.
- Protection provided by a polyester skin, offering enhanced resistance to scratches, small impacts, loose chippings, hydrocarbons, UV light and general bad weather: salt, hail, etc..

7-YEAR WATER-RESISTANCE WARRANTY**
